**SAMPLE DISTRIBUTION**

- 01 OF 05 Composite of Quality sample submitted to lab for the analysis.  
02 OF 05 Composite of Quality sample prepared for principal.  
03 OF 05 Composite of Quality sample reserved and retained by SGS.  
04 OF 05 Composite of Quality sample prepared for principal.  
05 OF 05 Composite of Quality sample reserved and retained by SGS.

Note: Reserved samples retained for three months only from sampling date unless otherwise instructed.

**SIZE DISTRIBUTION**

In accordance with instructions received from our principal, the size distribution is performed by SGS.

| Size   |        | Results |
|--------|--------|---------|
| mm     | ± mm   | %       |
| 187.00 | 240.00 | 100.00  |

**LAB ANALYSIS**

Analysis result obtained from our lab are reproduced as under,

| Test Parameter                            | Test Method / Protocol                           | Unit | Test Result                          |
|-------------------------------------------|--------------------------------------------------|------|--------------------------------------|
| Alumina (Al <sub>2</sub> O <sub>3</sub> ) | Acid Digestion Gravimetric (AAS-Flame / ICP-OES) | %    | 53.01 (Five three decimal zero one)  |
| Silica (SiO <sub>2</sub> )                | Multi acid digestion AAS-Flame / ICP-OES         | %    | 08.10 (Zero eight decimal one zero)  |
| Iron as Fe <sub>2</sub> O <sub>3</sub>    |                                                  | %    | 27.30 (Two seven decimal three zero) |
| Titanium (TiO <sub>2</sub> )              | Multi acid digestion final finish (ICP-OES)      | %    | 07.71 (Zero seven decimal seven one) |
| Calcium as (CaO)                          | Acid Digestion Gravimetric                       | %    | 05.10 (Zero five decimal one zero)   |
| Loss on Ignition (LOI)                    | Gravimetric                                      | %    | 19.11 (One nine decimal one one)     |
| Moisture                                  |                                                  |      | 04.10 (Zero four decimal one zero)   |

The responsibility for the above findings is limited to time; date and place of intervention only and does not refer to any other matter.

The MANUAL sampling method was agreed with the SGS Principal, as sampling by more reliable methods that provide probability samples was not possible. The Holder of this document is cautioned that collected MANUAL samples of this type do not satisfy the minimum requirements for probability sampling, and as such cannot be used to draw statistical inferences such as precision, standard error, or bias.

The sole function of any seals applied by SGS is to indicate that the material bearing such seals has been inspected by SGS. Seals applied by SGS are not intended to secure material, lock the container of such material, or otherwise provide any security function. SGS does not provide security services and disclaims any liability in this respect.

Any holder of this document is advised that information contained hereon is limited to the visual examination of the safely and readily accessible portions of the consignment only. Due to the nature of the cargo and limited access during inspection, items not recorded in the above description may be present.
